BR-01 – Blank Fields Message

Bug ID: BR-01
Title: Blank submission shows "Your username is invalid" instead of a clearer message

Environment:
- Browser: Chrome (version if you know it)
- OS: Windows/Mac
- Date: 12/29/2025

Steps to Reproduce:
1. Open the login page
2. Leave both username and password fields blank
3. Click Login

Expected Result:
A message like "Please enter username and password" or field-specific required messages.

Actual Result:
Displays "Your username is invalid!"

Severity: Low (functional behavior is correct, but UX could be improved)

BR-02 – Whitespace Not Trimmed

Bug ID: BR-02
Title: Login fails when correct credentials include surrounding spaces

Environment:
- Browser: Chrome
- OS: Windows/Mac
- Date: 12/29/2025

Steps to Reproduce:
1. Open the login page
2. Enter the correct username with spaces before/after
3. Enter the correct password with spaces before/after
4. Click Login

Expected Result:
System trims extra spaces OR gives specific invalid credential feedback.

Actual Result:
Error shown: "Your username is invalid!"

Severity: Low/Medium (valid behavior but poor UX tolerance)
